Playgoers' Club Sponsors Successful Drama Concert

Hall Well Filled; New Players Featured Plays.

(J. C.)

Coleman Playgoers' Club sponsored its initial drama evening on Wednesday before a large and appreciative audience. Bitterly cold weather may have been responsible for keeping a few drama lovers at home but despite this the hall was very well filled.

Club president Frank Duncan spoke a few words of thanks to the audience for their patronage and outlined the club's objectives.

"The Florist Shop" by Winnifred Hawkrigg with the following cast, Christine Bubbick as Maude; Bill Cousins as Henry; Julius Baruta as Slovisky; Helen Dibblee as Miss Wells and George Dibblee as Mr. Jackson was the first play staged.

Maude, a sympathetic soul, believed in distributing gifts of flowers to deserving people which Slovisky did not mind providing it brought additional business to his florist shop. Henry, the office boy, did not like this sentimental gush but is almost converted when Maude turns a fifteen years' engagement between Miss Wells and Mr. Jackson into an imminent marriage with flowers from Slovisky's.

The last act brought a floral bouquet in this play were the work of Mrs. Steve Krzywy and Mrs. J. Hopkins.

All players played their parts splendidly under the direction of Mrs. A. E. Graham. "The Trysting Place" a comedy by Booth Tarkington was the second play. It dealt with a tangled skein of secret romances, with each couple trying to meet privately in the same lounge.

Mrs. Curtis, a widow, (Joanna Handzel) and Lancelot Briggs, a typical Tarkington lovesick youth (Frank Duncanson Jr.) were one couple; Mrs. Briggs, (Agnes Kanik) and an old flame, Arden Dixon, were the second, while Jessie, (Mary Duncanson) and Rupert Smith, Joe Lothian, were the third and most obviously loving couple. All ends well for everyone but Lancelot.

Wind Causes \$300 Damage To Excel Roof

On Monday evening a very strong wind raged through the Pass which, combined with the occasional snow flurry, caused many to stay indoors.

Contractor Joe D'Appolonia suffered the painful experience while examining the Excel Building of seeing the wind lift a corner of roofing paper on the Excel Building roof and a strong gust of wind rip the paper, practically the full width of the building, pulling paper and nails off the roof as if by an unseen hand. He estimated damage at approximately \$300.

Workmen were busy Tuesday morning making necessary repairs.

H. J. Main, who has been appointed to the vice-president of the Canadian Pacific Railway, after four years as general superintendent of transportation and 44 years with the CPR.

PRICES BOARD TELLS WHAT RATION COUPONS EXPIRE ON DECEMBER 31

All sugar-preserves S coupons Nos. 1-25 in ration book Five will expire on December 31, 1946, the wartime prices and trade board announced today. In addition meat coupons M Nos. 56-63, butter coupons B Nos. 29-34 in ration book Six and all evaporated milk coupons bearing a heavier design also will expire on that date.

These coupons may still be used by a supplier for a period of 14 days after the expiry date, officials said. However, they may only be used for purchasing supplies until January 7, after which they must either be deposited to the credit of his ration coupon bank account or surrendered to a bank in exchange for a bank transfer voucher on or before January 14, 1947.

CHRISTMAS CONCERT

The Christmas concert for St. Alban's Sunday school will be held on Monday, Dec. 23, in the Parish hall at 7.30 p.m.

CHRISTMAS ISSUE DECEMBER 19

The Journal will publish its Christmas issue on Thursday, December 19.

Advertisers are asked to have their copy in The Journal office no later than Monday, Dec. 16, and persons wishing to contribute news items or feature Christmas stories are asked to have their copy in no later than Monday evening at 5 o'clock.

One of the principal features of the Christmas issue will be the Christmas Greetings from practically all local business houses as well as several in other Pass towns.

Twenty-Nine Rinks Enter Curling League

All Rinks Filled With Additional Men as Spares; Bonspiel Draw Already Made.

Twenty-nine rinks form Coleman curling club membership this year with every rink having its complement of four men. In addition there are two spares to play on any rink which might be short-handed some evening.

The sport in Coleman is at its height in popularity and this is due in the main to such a splendid building in which to play the sport. No effort is required on the part of old curiers to secure new recruits each year now as new curlers seek membership in the club on their own accord.

This week the schedule was to start on Tuesday, but the heavy Chinook caused postponement of the games. As this is written it is not known whether Wednesday night's will go on as scheduled.

Here are the personnel of each rink, the skip's name being capitalized:

G FORD, J. Rogers, L. McDonald and R. Jones.

H CLAES, E. Spivak, J. Syguitak and J. McDonald.

H BOULTON, R. Cousins, W. Liddell and P. Smith.

N FLEMING, M. Fleming, I. Morgan and E. Derbyshire.

G JENKINS, W. Gate, M. Killoran and A. Fry.

T HOLSTEAD, S. Murdoch, H. Hewitt and J. Owen.

A DOW, S. Short, W. Clark and G. Lant.

W DUTIL, Dr. Liesemer, R. Vincent and H. Tiberghien.

J LIPOVSKI, J. Joyce, R. Foster and J. Gjeddos.

J JENKINS, H. Maslen, J. Smith and O. Smith.

J KERR, J. Wilkie, J. Jackson and N. Nicholas.

J D'APPOLONIA, J. Melusi, E. Fontana and E. A. Fontana.

J EMMERSON, R. Johnson, E. Gudmundson and A. DeLuca.

J RINALDI, P. DeGroot, C. Milo and P. Fergotti.

S RICHARDS, R. Pattinson, W. Coover and J. Ubarek.

E LEDIEU, R. Buydens and R. Foster.

W ROUGHHEAD, C. Roughhead, W. Marland and J. Lloyd.

A BALLOCH, J. Malanchuk, J. Bayon and S. Bucar.

W HOGGAN, S. Panek, J. Jenkins and T. Verba.

P DICKIESON, N. McKinnon, F. Bucar and F. Graham.

J PARK, H. Harris, Alex., and H. Zak.

B RYPIEN, E. Wood, W. White and J. Kilgannon.

STOREBREAKER GETS TWO YEARS

The F. M. Thompson Co. store at Blairmore was entered on Sunday morning by one Mark Harrison of Blairmore. He appeared the early part of the week in front of Magistrate Fred Antrobus who found him guilty and sentenced him to two years at Lethbridge jail.

On Tuesday morning he was accompanied by an RCMP officer to Lethbridge to begin his two years' term.

Around The Town

We have been at our wit's end this week trying to secure a number of news stories, but this is a time of the year when citizens are so absorbed in their own private affairs that they have little or no time for community activity.

The stores are really busy and clerks are hard pressed to meet each customer with a friendly smile, offer Xmas suggestions, display various items, wrap up gifts and then hurry over to the next customer who patiently waits for service.

More and more store windows are being dressed for the Christmas season. Window lights are most effective, especially in the evening, and add a spirit of Christmas cheer to main street. The interior of all stores are gayly decorated and some are really very nice.

Once the town's colored lights have been strung across various points on main street and augmented by colored lights in the various store windows, main street is really going to be something worth seeing.

The Chinook Monday and Tuesday really blew through the Pass. Little streams of water were to be seen running from the large snow banks piled along the sides of the streets.

The wind blew so strong that it damaged the Excel roof and in Bellevue, where it really let itself go, it blew a home off its foundation.

The Chinook was followed Wednesday morning by a heavy snowfall which hampered traffic to a slight extent, but not to the same degree as they experienced three weeks ago. Wednesday noon both the town snow plow and the tractor were on the job clearing main and residential streets.

Postmaster Frank Graham and his staff have started the Christmas grind and are handling hundreds of parcels passing through the local office. Within the next week the usual avalanche of cards will have to be handled and usually requires additional staff. Citizens can help the Postmaster by taking their mail down to the office during the day and not wait till the clock is ready to strike 6 p.m.

WINS PRIZES WITH CANARIES

Dave Sudworth, recently exhibited some of his canaries at an Edmonton show and won a 3rd and 6th prize in different competitions.

He has an exceptionally fine bird at his home in Grafton town and extends a welcome to anyone interested in breeding canaries or desiring one as a pet.

SCHOOL BOARD MEETING TONIGHT

Regular session of the local school board will be held tonight. Chief item of business will be to appoint a male janitor to succeed John Kinneer sr, whose resignation becomes effective on Saturday, Dec. 14.

Matron Mrs. E.V. Woods Resigns From Hospital Staff

To Visit Britain for Few Months; Plans to Reside in Edmonton District.

Coleman Miners' Union hospital is about to lose its matron of the past sixteen years. Matron E. V. Woods is resigning her position to take effect on December 22.

Mrs. Wood will accompany Mrs. Mary Waddell to Ireland and the two ladies will leave Coleman immediately after Christmas as they are scheduled to board the Queen Elizabeth which sails from New York on Jan. 3. Once across the Atlantic Mrs. Woods will take the opportunity of visiting both Scotland and England and plans on returning to Canada about April.

Her plans after April are still indefinite, she being undecided whether to remain in eastern Canada or to settle in Edmonton district where she made her home before coming to Coleman.

Last Friday evening Mrs. Jack Nash, entertained in Mrs. Woods' honor at a bridge party, honors being won by Mrs. S. B. Ryan and Mrs. L. Neilson. On Sunday she was guest of honor at a dinner party given by Mrs. A. Dewar.

During her long residence in Coleman Mrs. Woods has become well and favorably known among the citizens. Her many friends join in wishing her a most pleasant trip while in Britain and success when she once again follows her vocation of nursing.

Mrs. J. Kinneer sr. and Mrs. S. B. Ryan were joint hostesses on Wednesday evening at a party at the former's home in honor of Mrs. E. V. Woods, R.N. who is about to leave Coleman after a residence here of sixteen years.

Six tables of bridge were in play with honors going to Mrs. J. J. McIntyre, Mrs. T. B. Smith and Mrs. J. Nash. Five tables of Whist were also in play, winners being Mrs. E. Hill and Mrs. R. Johnson.

A dainty lunch was served by the hostesses with Mrs. W. Kinneer and Mrs. M. Fleming assisting.

Mrs. Ryan on behalf of the assembled guests, presented Mrs. Woods with a black leather purse with best wishes for an enjoyable voyage across the Atlantic and a pleasant trip in Britain. She voiced regret at Mrs. Woods' departure from Coleman and stated she would be greatly missed by her many friends. Mrs. Woods, in reply, thanked her friends for their gift and well wishes and she stated she would sincerely miss the many friends she had made in Coleman.

Miss A. Yuill led in singing the old favorites, "For She's A Jolly Good Fellow" and "Auld Lang Syne".

KNOCKED DOWN BY CAR

On Saturday morning near The Rite Spot little Georgeann Pattinson suffered bruises when knocked down by a car driven by John McCulloch. Luckily Mr. McCulloch stopped his car in time to avoid serious accident to the child.

Horace Allen Again Heads Board Of Trade

Appoint Representatives to Act in Civic Centre Committee; Stormy Weather Held Down Monday's Attendance.

Stormy weather was held as the cause for the poor attendance at the regular supper meeting of Coleman Board of Trade on Monday night. President Horace Allen presided.

January 1 to December 31 will henceforth be recognized as the Board's year and each December a nominating committee will be chosen to bring in a new slate of officers. Due to the fact that the Board has just been in existence eight months, two of those running through the summer recess, it was agreed to allow the present full slate of officers to preside through 1947. They were congratulated on a good job well done in 1946.

The officers are as follows: Hon. President, J. J. McIntyre. Hon. Vice-Pres., Frank G. Graham. President, Horace Allen.

1st Vice-Pres., Frank Aboussaff, 2nd Vice-President, S. C. Short. Secretary, J. A. C. D'Appolonia. Treasurer, A. Wilson.

Executive: W. Dutil, Jim Wilkie, John Holyk, Nick, Nicholas, Mack Stigler, George Evans, L. S. Richards, F. R. Duncanson, J. M. Chalmers. Publicity, A. Balloch.

L. S. Richards and S. C. Short were appointed to represent the Board at the Civic Centre meeting on December 17.

A letter was received from the Calgary Board of Trade seeking the local Board's support in its attempt to have a branch of the University of Alberta located in Calgary. The letter was tabled and will be discussed at a later date.

The Board's sights have been focused on two large undertakings. In order to further the projects a delegation will be sent to Lethbridge early in the new year.

The National Film Exchange is endeavoring to place a library in the Pass. It requires approximately \$200 to finance the library and the Board will seek additional information on the subject before determining whether to help financially or not.

CHRISTMAS TREE PARTY

Coleman's Pythian Sisters' lodge will sponsor a Christmas Tree on Wednesday, Dec. 18. The members' children will each receive a small present.

DON'T FORGET the Ladies Auxiliary of St. Paul's United church tea and bazaar this Saturday in the club room. Everyone is welcome.

C. G. I. T.

will hold their annual

Xmas Candle Lighting Service

in St. Paul's United Church Sunday, Dec. 15th at 7.30 p.m. Come and Worship

Warning to Horse Owners

The town by-law governing horses roaming at large within the incorporated area in the Town of Coleman will herewith be strictly enforced.

Please be advised that should a horse belonging to you be found roaming at large within the incorporated area you will be brought into court and prosecuted to the full penalty of the law.

Portable X-Rays Aid To Soccer Players

Makes Speedy Diagnosis Of Player's Injuries

LONDON.—A portable X-ray outfit, enabling a speedy diagnosis of a player's injuries has aroused the interest of trainers in the soccer world. Ottenham Hotspur, London's second division club, instigated the idea. One of their most ardent fans, Edward Barber, is an X-ray expert and when the Spurs are playing at the White Hart Lane Ground, he always is present with his outfit stored in his automobile.

If a player is injured during a match and Trainer George Hardy thinks that the injury may be serious, Barber is called to the dressing room and takes a photograph of the injury. He then drives home, develops the plates and in less than two hours the prints are placed before the club doctor for his opinion.

This speedy attention to a player's injuries has greatly helped the club doctor in his treatment of the players. It has proved a valuable time saver for the club, as quick diagnosis and treatment frequently cut down the period of absence of the injured player from the first team.

NEW ZEALAND APPOINTS TRADE COMMISSIONERS

AUCKLAND, N.Z.—New Zealand has decided to appoint trade commissioners in New York, Montreal, Sydney and Melbourne. Officials carrying out these duties have in the past had tourist and other functions to attend to in addition, and will in future be able to concentrate solely on trade and industrial matters.

Senior trade commissioner in North America will be at New York, with a commissioner working in conjunction with him at Montreal. The Montreal position has been filled by J. A. Malcolm, who was New Zealand supply liaison officer at Melbourne. He is already on his way to Montreal.

EXPENSIVE TASTE

BEATTYVILLE, Ky.—It was give and take for Mrs. Mary Dunigan's cow. The cow was giving her milk while it was taking \$130 in currency she had in a tobacco sack—and chewing it. So explained Mrs. Dunigan in an affidavit when she brought a well-masticated batch of bills to a Beattyville bank to have it exchanged for more usable notes. Mrs. Dunigan said the cow snatched the money bag from her pocket while she was busy doing the milking.

Sugar cane is a giant grass, sometimes attaining a height of 20 feet.

LUNCH IS SERVED IN A FLASH.—Is yours a home where the family troops in for the noonday meal with hungry looks in their eyes? If so, you're probably a ready listener for new suggestions concerning luncheon menus. Your mornings are probably filled to the limit with household tasks and there's just not time to fuss over the noon meal. That's why we've picked for this month, a casserole of hearty baked beans, served with spicy mince-meat muffins, and popped into the oven after the breakfast dishes are done. The muffins can be made in a jiffy, and there you have it, a hearty, wholesome meal with a minimum of effort!

Mince-meat Muffins

- | | |
|---------------------------|-----------------------------|
| 1 cup all bran | 1/2 cup sugar |
| 1 cup milk | 1 egg |
| 1 cup prepared mince-meat | 1 cup sifted flour |
| 2 tablespoons shortening | 3 tablespoons baking powder |
| | 1/2 teaspoon salt |

Combine all bran, milk and mince-meat; let soak about 5 minutes. Blend shortening and sugar; add egg and beat well. Stir in the bran and mince-meat mixture. Add dry ingredients which have been sifted together; mix only until liquid and dry ingredients are combined. Fill greased muffin pans two-thirds full. Bake in moderately hot oven (400 deg. F.) about 25 minutes. Yield: 12 muffins (2 1/2 inches in diameter.) 2702

WORLD HAPPENINGS BRIEFLY TOLD

R. H. Turk has been appointed harem-master to the King, a position vacant since 1942.

Eight thousand tons of barley—first shipment from Turkey to alleviate the food shortage in India—arrived recently at Karachi.

Herbert Morrison, lord president of the council, says smoke pollution costs Britain about \$50,000,000 (\$200,000,000) annually.

A report by the board of grain commissioners at Winnipeg indicated that the western barley crop will meet the quality standards required of it.

Among those who congratulated Mrs. Addie Gotham Shaver of Lyons Falls, N.Y., on her eightieth birthday was her mother, Mrs. Mary Wilder Gotham, 97.

More than 600 clocks stolen by the Germans during the war from Belgian municipal buildings and churches have been recovered in a hiding place near Hamburg.

Until the permanent post-war strength of the Royal Australian Air Force is decided, the R.A.A.F. will keep on 15,000 men, according to a federal government announcement.

Under a voluntary plan which rewards them with United States citizenship if they prove worthy, approximately 300 German scientists and technicians have been taken to U.S. to work.

HIGH CIVILIAN AWARD

In New York, Sir William Stephenson, a native of Winnipeg who directed British security co-ordination in the western hemisphere throughout 1940-45, received the Medal for Merit, the highest civilian award of the United States government.

A calory is a unit of energy almost equal to the energy, in the form of heat, required to raise a weight of 300 pounds to a height of 10 feet.

JAILED AFTER FIRE, FREED TO DIE—When specialists testified he will die within a year from an incurable disease, Barnett Walansky, former owner of the Coconut Grove, was freed after serving three years and seven months of a 12-to-15-year prison term for manslaughter. He was released on the eve of the fourth anniversary of the holocaust at the Boston night club that took the lives of 498 patrons.

Want Larger Bonus

Sugar Beet Growers Have Sent Petition To Finance Minister

Manitoba sugar beet growers have joined those of Alberta, Ontario and Quebec in petitioning Finance Minister Isley to increase the bonus on sugar processed from Canadian beets. This would increase the price to beet growers from the present \$11 a ton to \$12.50 a ton in 1947.

Herbert Sulkers, Manitoba vice-chairman of the growers, said that the request, if granted, would increase the present bonus of \$1.10% to \$1.85% a ton on home grown sugar beets delivered at processing plants.

SYNTHETIC PERFUME

It took nearly 25 tons of violets to make a single ounce of the natural oil used in perfume, until a short time ago. Today, the violet odor is produced synthetically.

BEAVER TRAPPING

First Time In 23 Years Newfoundland Permits Hunting

ST. JOHN'S, Nfld.—For the first time in 23 years the Newfoundland government has decided to permit the hunting of beaver, which in 1923 were threatened with extermination.

The government, estimating that the beaver population now has reached 50,000, has decided to issue beaver hunting licenses to about 600 trappers. Each trapper will be allowed to take 10 pelts which will be turned over to the department of natural has completed the marketing.

On delivering the pelts the trapper will be paid \$15 a pelt. He will be paid the balance after the department has completed the marketing.

It is estimated that the pelts will each bring about \$40.

Another New Textile

Is Washable, Very Durable, And Both Light And Warm

ROCHELLE, N.J.—A new washable fibre made from nylon which will resist moulting, moths, fungi, mildew and alkali should reach the market next year, a textile specialist told the American Association of Textile Chemists and Colorists here recently.

Specialist Dr. L. L. Larsen said the new fibre should have a "fundamental influence" on the textile industry. Now produced experimentally, the fibre combines dimensional stability with durability, and is both light and warm.

The first zoological garden was established in China about 1100 B.C.

CANADA'S STANDARD PIPE TOBACCO

Tremendous Job

China Is Going To Turn Yellow River To Original Course

According to Collier's, China will soon begin work on the reversion of the Yellow River to its original course from which it was diverted in June, 1938, causing it to flood 500 square miles and stop the advance of a large part of the Japanese army. Before the tremendous job of getting this unruly river back into the 800 miles of its former bed can be started, more than 150,000 persons who have settled in it will have to be moved.

OUR COMPLETE SHORT STORY—

THE DUMMY'S COAT

By ANN HARRIS

Copyright
Wheeler Newspaper Syndicate

PAT strode doggedly down the street. While he was going he did not know. All he knew was that he was hungry and had to eat.

He looked this way and that way, his head turning from side to side. He saw people, warmly dressed, gazing at shop window displays or rushing home. He was cold, too. The air was raw and biting, snow came down in sleet, and his coat was thin and ragged. He pressed his hand to his stomach and cried out "I've got to eat! I've got to eat!"

The sound of his voice startled him. A few persons looked up as they passed, but none offered him so much as a penny.

On and on he went, hoping to find a friendly restaurant. Suddenly he stopped, while his eyes bulged. On the sidewalk stood a dummy. It was an ordinary store dummy, but Pat stared at it, fascinated, and ran his tongue around his lips. Never before had he been interested in dummies, but this one, within easy reach of his hand, had a brand-new overcoat upon its back.

Pat's fingers twitched. Silently he moved toward it, then stepped quickly away, leaving the dummy standing there motionless.

Looking straight ahead he hurried on. At the corner he turned into Elm street, over to Warren, then into Oak, and down toward the river. Satisfied, at last, that he was not being followed, he examined the coat. It was soft and warm and the price tag read \$30.00. He tore off the tag and threw it away. The pawn shop near the docks would give him \$5.00 for it without question. Already he was tasting a good dinner.

Before entering the pawnshop he cautiously looked in through the door, jerking himself back abruptly. At the rear of the room a tall, lean man was inspecting the books of the shop. Pat recognized him as Jack O'Hara, a plain clothes man from the headquarters, and retreated hastily.

"Glory be!" he ejaculated. "Glory be!"

Where should he go now? He couldn't eat the coat, and his stomach was clanking for food.

Once before, he recalled, he had been befriended by Ross Jennings, bar man at an uptown club. Perhaps he would give him something for the coat, even if it were nothing more than something to eat. He just had to eat.

Ross was busy when Pat arrived at the club house, but seeing Pat's excited manner he led him to a small, private room to one side.

Quickly Pat explained that he wanted to sell the coat.

Ross felt of its texture and tried it on. "I don't need a coat," he said after a few minutes, "but I know a man who might buy it. I'll tell you what, I'll give you \$15.00 for it, but I don't want it until you'll have to take it back."

Pat nodded dumbly. He couldn't speak.

"Wait here," Ross told him. "I'll have the money for you in a minute." Ross went out and Pat sank weakly into a chair. Fifteen dollars was an enormous amount to him. He was glad that he had not been able to pawn the coat.

Ten minutes passed and Ross had not returned. Pat was growing anxious. What was keeping Ross? All at once he heard loud voices and shrill cries, mixed with the sound of splintering wood and running feet.

What was going on? Pat opened the door and looked out. It was a big jump, yet he would have to risk it. He landed on his side, but the thick, heavy overcoat lay beneath him. Only one ankle felt somewhat stiff as he got to his feet.

"A raid!" Pat gasped, as he pushed the door shut and bolted it. "A raid!"

Snatching up the coat he ran to the window and looked out. It was a big jump, yet he would have to risk it. He landed on his side, but the thick, heavy overcoat lay beneath him. Only one ankle felt somewhat stiff as he got to his feet.

Dashing through the yard, he sprang over the fence, then over another until he came into a side street. Still clutching the coat, he ran with all his might toward Main street, where he mingled with the crowd and paused to catch his breath.

Looking backward he caught sight of a policeman in the distance, and began to run again. The coat had become a burden by this time. He no longer desired it and wanted to throw it away. But where? He couldn't throw it into the street. Why hadn't he dropped it beside a fence? He couldn't sell it anyway. Something was always interfering.

He tried to leave it on a mail box but a newsboy yelled to him that he had forgotten something. Inwardly longing to throttle the boy, he raced back and grabbed it.

Again glancing behind him, he thought he could see a number of police. Where they after him? Terrified, he sprang forward. He was breathing heavily now, while the injured ankle had begun to pain. Gritting his teeth, he pushed on. The harder he ran, though, the more his ankle hurt. He had gone only a short distance further when a sharp stab of pain brought him to a stop. He couldn't run any more.

Frantically he looked about for a place to hide, when he noticed an old man standing timidly at the corner, and an idea flashed into his mind. It might help him elude the police. Forcing a smile he approached the old man, took hold of his arm, and guided him slowly and carefully across the street.

"Thank you," the old man quavered, "thank you," and to Pat's surprise pressed a quarter into his hand. For a moment after the man had gone Pat stood still, his eyes opening wide at what he saw. Right in front of him, just as he had left it, was the dummy he had seen earlier. Without realizing it, he had come back to the same spot.

He rushed to it joyously and slipped the coat around its shoulders, where it belonged.

Immediately a great change came over him. He straightened up as the weight of guilt dropped from him, and raised his head. Drawing in a deep breath of air, he blew a kiss in the direction of the police and laughed derisively.

Holding the quarter tight within his grasp, he walked painfully but triumphantly down Elm street and over to his favorite hot dog stand.

Can Get Tough

Man Found Out British Courts Are Not Always Lenient

By Canadian standards, British courts are perhaps lenient in the matter of driving offences. But, says the Brandon Star, when they decide to be tough, they are very tough indeed. Recently, a 29-year-old London man appeared at Old Bailey, charged with driving an auto while disqualified from holding an operator's permit. (He had been convicted previously of another offence and his permit suspended.) He was also charged with using a permit not his own.

He was sentenced to two jail terms of six and twelve months (to run concurrently) and in addition, was fined \$800. His permit was suspended for life. His father, who had lent the son his own permit, was fined for his part in the affair, \$1,200.

JAPANESE SOLDIERS DID NOT KNOW WAR OVER

MANILA.—A group of 21 armed Japanese soldiers who claimed they did not know the war was over surrendered unconditionally to Philippine military police on Panamanian island in the southwestern Philippines, it was announced.

Two captured Japanese officers from a Manila prisoner of war camp appealed to the strategists by loud speaker. One of them finally negotiated the surrender.

The stragglers had four mortars, two automatic rifles, various small arms, bayonets and a large amount of ammunition.

LARGE COOKBOOK

The Chinese imperial cookbook contains 96 volumes and weighs a ton. It is said to be the largest cookbook in the world. An abridged edition of the same work contains 18 volumes.

BY AIR, LAND OR SEA—IN ONE VEHICLE—A vehicle that soars in the air, rolls over land and glides through water to combine the attributes of a helicopter, motor car and cabin cruiser, will be ready in the 1950's, even if "it's a little far-fetched for today," C. P. Farr of Toronto, its inventor, predicts. A plan made of the strange vehicle is shown above.

BRITAIN MUST HAVE TROOPS SAYS MR. ATTLEE

LONDON.—Britain must retain enough trained servicemen to carry out her "heavy and responsible tasks in many parts of the world," Prime Minister Attlee said in a country-wide broadcast.

"We must not throw away what was won with so much blood and sweat," he said. "We can not reduce our forces too low without endangering our ability to do our best to establish peace and security in the world and support the United Nations."

A Suitable Gift

This little apron, slim of waist and with narrow shoulders, is Pattern 4586. It's designed to be made from a feed-bag if you like, combines economy and prettiness.

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions. Pattern 4586 in sizes small (32-34), medium (36-38), large (40-42). Medium size, 1½ yards 35-inch.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

The Worker

The indoor worker is often over-fatigued by the monotony of his work until it gets on his nerves and brings headaches, irritability, loss of sleep and indigestion.

A good way to relieve this condition is to build up nervous energy with Dr. Chase's Nerve Food, the mineral and Vitamin B tonic.

Ask for the new economy size bottle of

PATENTS

AN OFFER TO EVERY INVENTOR. List of inventions and full information free. Write to: CANADIAN PATENT ATTORNEYS, 273 Bank Street, Ottawa, Canada.

SELECTED RECIPES

CEREAL MARSHMALLOW SQUARES OR FAVORS

¼ cup butter
½ pound marshmallows (about 2½ dozen)
½ teaspoon vanilla (to desired)
1 package oven-popped rice cereal (5½ oz.)

Cook butter and marshmallows over hot water until thick and syrupy. Add vanilla; beat thoroughly. Put cereal in large greased bowl and pour on marshmallow mixture, stirring briskly. Press into greased shallow pan. Cool. Remove from pan; cut into squares or fancy shapes using wavy cookie cutters. Yields: 24 2½-inch squares.

CHOCO-SWEETS
12 ounces (about 2½ cups, chopped) semi-sweet chocolate
3½ cups all-white flaked almonds

Melt chocolate bits over hot but not boiling water. Add all white flakes, mixing until well-coated with chocolate. Drop by spoonfuls onto waxed paper or spread in shallow greased pan to one-fourth inch thickness, and when cool cut into squares. Yields: 10 candy patties or squares.

Inventions Wanted

Canadian Patent Office Will Give Exclusive Rights For Seventeen Years

OTTAWA.—If you've got any ideas on a new kind of ice cream goblet, handkerchief or enlivening apparatus, don't keep them to yourself. The Canadian Patent Office here will give you a monopoly on your invention for 17 years—its new and the exclusive right to make what money you can from it for 17 years.

First of all, though, be certain you've got an "invention." It must be "any new and useful art, process, machine, manufacture or composition of matter" or an improvement of one. So if you've been brain-child can be tied away with the approximately 430,000 other patents that have been collected by the Patent Office since 1824.

Furthermore, it isn't cricket to borrow an idea from a neighbor or a friend. Before making an application, for a patent the applicant must swear he is "the first and true inventor." So if you've been intending to patent some of those handy gimmicks, your inventive neighbor has perfected but doesn't seem to care about, just forget it.

Though many of the inventions are simple things like the new style golf bag, mechanical coin changer and shirt folding table patented along with about 140 other items last week, your chances are much better of becoming a second Edison if you can come up with something more scientific like a new synthetic resin, some electronic electric apparatus or a photographic color sensitizing emulsion.

Canada's inventors, who now father discoveries of the first magnitude, in pioneer days confined their talents to devising gadgets and simple labor-saving devices. The first Canadian inventor was Nosh Cushing of Quebec City, who shouted "Eureka!" and got patent Number One in 1824 for a "washing and fulling machine." Last week the patent office chalked up Number 427,384 for a "foldable fish landing net."

Early Canadian inventors untroubled by nuclear fission, rocket bombs or radar, were granted patents for such grisly "new and useful improvements" as a "pig's nose catilage divider" and a coffin "to prevent infection." More in line with present day "miracles" was the invention of Isaac Ogden, of Three Rivers, Que. who in 1842 devised a "method of propelling vessels by means of heated air acting on the fluid in which they float."

Today, with most of the inventions submitted by large industrial concerns and dealing with technical subjects, patent attorneys prepare 99 per cent. of the patent applications.

Even the lawyers must have their troubles describing for example, a composition of matter comprising a polymeric synthetic linear polyamide having an intrinsic viscosity of at least 0.4 and being the reaction product of a polymer-former composition comprising reacting materials selected from the class consisting of polymerizable monoamino-mono-carboxylic acids and mixtures of diamines and dibasic arboxylic acids.

It isn't the formula for a more powerful atomic bomb but merely man duplicating an invention nature hasn't bothered patenting—a "quadruplet" similar to the skin just under the shell of an egg.

BANK HEADS EXPRESS GUARDED CONFIDENCE IN CANADIAN FUTURE

George Spinney, B of M President, Discusses Labor's Legitimate Aims

B. C. GARDNER, GENERAL MANAGER, REPORTS SUCCESSFUL YEAR

Montreal, Dec. 3.—A tone of confidence concerning the future of Canada, tinged with a warning against over-expansion of business and concern at the present level of taxation, featured the presidential address of George W. Spinney, C.M.G., at the recent 129th annual meeting of the Bank of Montreal.

Speaking at the same meeting, B. C. Gardner, general manager, observed that more than 100,000 new savings accounts had been opened with the bank during the past year and added that deposits under all headings reached a new year-end high of \$1,722,000,000—an increase of \$125,000,000 over the previous year.

Reviewing the economic and social aspects of domestic and international events during the past year, Mr. Spinney looked to a future which he viewed with guarded optimism. He noted that "in an age of flux there are some signs of a conservative inventory of values that do not, and cannot, change."

"No device or formula can produce wealth and well-being without work, enterprise and the assurance of reward. No mere document replete with cleverly devised sections, sub-sections and exceptions, can ensure fruitful co-operation between individuals or between nations lacking the confidence that can grow only from fair and honorable dealing."

Lab's Legitimate Aims
Commenting on the modern tendency to speak of labor as a "force," a "factor," or a "cost element," the President said he preferred to think of labor "as the same people who were so largely responsible for this Dominion's spectacular wartime production records and who made their contribution, too, in the front line. These are citizens who want a better life for themselves and for their children, and who look to a future free from fear of unemployment. They do not want another war."

"During the past year," he said, "we have seen the pressing need for coming back many members who were absent on military service," and added that "in addition to absorbing former officers of the bank, we have engaged some 110 young men from the Armed Services not previously in our employ and in setting their initial salaries, the year spent in the forces have been credited as banking service."

SMILE AWHILE

After pulling up a young lady who was driving a car, the policeman said to her sternly:

"And miss, did you know that not only were you on the wrong side, but you were travelling at 50 miles an hour in a built-up area?"

"Oh, yes," she replied, "I've explained the sweet young thing."

"And I only learned to drive yesterday!"

She was anxious to learn the latest news about her neighbor's accident, and turning toward her husband, who was immersed in the evening paper, she said:

"Henry, can you see anything in the paper about Mr. Jones running over his mother-in-law?"

"Not yet," replied Mr. Peck. "I haven't come to the sporting news."

Two cyclists pulled up for the night at a hotel.

"I think," said the host, "that you'll have a comfortable night. It's a feather bed."

At two o'clock in the morning one of the cyclists roused his companion.

"Change places with me, Dick," he groaned, "it's my turn to lie on the feather."

"Sorry, miss," replied the conductor. "But don't you worry; you can pay me the warranty another time."

"But you may never see me again."

"Well, what's the odds?" he said, meaning to be gallant. "I won't break my heart if I don't."

A man attacked by two thugs fights desperately. They finally overpower him and rob him, finding only 30 cents.

First Thug—My gracious man, if you fight that way to save 30 cents what would you do if you had a dollar?

Victim—I don't care for the 30 cents, but I didn't want my financial condition exposed.

An attendant in an Aberdeen cinema found a ten-shilling note. She took it to the manager.

Later the following notice was screened:

"A 10 sh note has been found in cinema. Will the owner please queue up at the box office at 10 a.m. tomorrow."

The aggressive wife of a meek little man was hauling her husband over the coals for having made a fool of himself when some friends called. He sat in dejected silence.

"And don't all there," she shouted, "making life at me in your pockets, either."

FOOLISH TO NEGLECT SMILES, SNEEZES OF Head Colds

A bottle of Vicks Vapo-rinol is mighty handy to have around the house because this double-duty nose drop:

Quickly Relieves sneezing, sniffing, head colds, watery eyes, sore throat, helps prevent colds from developing if used at the first warning signs or sneezes.

This Double-Duty Nose Drops should save you much misery. Try it! Works fast! You'll like it!

VICKS VAPOR-NOL

The other day I had one of the usual runs with the wife.

"All right, I'll show you," I told her. "I'll commit suicide."

"Oh, right," she said, "but don't forget to turn off the gas when you're finished."

"I have a note from your schoolmaster in which he tells me that you are pretty in a class of 30 boys, Tommy."

"I'm sorry, Dad, but it might have been worse."

"How could it have been worse?"

"It might have been a larger class."

THE FIRST LESSON

Thinking that I was now old enough to begin to learn the secrets of commerce, the successful business man started:

"There are two things necessary if you want to succeed, my boy: these are honesty and sagacity."

"What is honesty, father?" asked the lad.

"No matter what happens or how adversely it affects you, always keep your word since you have given it."

"And sagacity?"

"Never give it."

Many home fires start in waste paper baskets when ash trays are carelessly dumped.

NOTES AND COMMENTS

MUNICIPAL HOSPITAL

No doubt since announcement has been made that the ratepayers of Crows Nest Pass Municipal Hospital District No. 40 will be asked to sanction an additional expenditure of \$90,000 to the \$185,000 already authorized many will have given the subject deep thought.

In order that ratepayers might have a clearer picture before them in order to base their decision pro or con on the subject we set forth these facts:

For the first time possibly in the history of the Crows' Nest Pass the ratepayers of the various units decided at one and the same time that a modern hospital was a necessity in this area and the large majority voted in favor of its construction.

A site suitable to the majority has been secured between the two largest towns in the Pass, Coleman and Blairmore, and the site is now the property of the hospital board.

The plans and specifications of the proposed hospital have been concluded by an architect so that construction will not be hindered once finance is available.

Water pipes have been purchased and a water main can be laid in early spring from the Blairmore Water Works, to the site.

A contractor has been awarded the contract to construct the hospital at a price of \$292,955.

It will require an additional \$70,000 to equip the hospital at present day prices.

Should the ratepayers sanction the increased \$90,000 expenditure the hospital should be ready for occupancy within twelve to fifteen months from the moment the first work gang steps on the site.

The Board plans on spreading the debentures over a 25-year period rather than the original 20 years in order to keep the mill rate as low as possible.

A large industrial area such as The Pass requires a modern hospital to treat the many and miscellaneous injuries received in industry and which occur despite the safety precautions taken by the coal companies and unions.

Our competent doctors, equipped with modern equipment, will be better

able to attend to patients rather than having them sent to city hospitals where the equipment is available.

Patients, whose illness would cause them to be sent to city hospitals, will save uncounted dollars. They will not have hospital bills to pay. Their family members will not have train or bus fares to the city, nor will they have hotel and restaurant bills. These items run into many thousands of dollars when spread over a year period and comprise the entire Pass.

Maternity cases will have a ward of their own.

Failure to sanction the increase will see the project closed for an indefinite period with much money lost. The so-called hospitals prevailing in the Pass today would be the only means of hospitalization; the same number of "city cases" will have to be sent to the city, with its accompanying heavy load of expense to the unfortunate families.

This area is rich in coal deposits and its future is bright. The hospitalization facilities of the area should progress step by step with industry. We should ever look forward; never backwards.

CALGARY'S UNIVERSITY BRANCH

Readers of provincial news topics are following with interest Calgary's present attempt to secure a branch of the Alberta University in the southern city. This interest is two-fold, it is an important subject and it can ultimately affect them as provincial taxpayers.

The city appears united in its attempt to secure a branch of the university within its city limits and it now seeks the support of southern towns and cities to add increased pressure on the provincial government to locate a branch in the city.

A debate on this subject took place here in Coleman this week, Edmonton winning quite handily. Here are some of the points brought forth by those in favor of maintaining the university in Edmonton:

"Alberta university at the present time is sadly lacking in funds

to construct necessary university buildings and properly equip them.

To place a branch in Calgary would be a duplication of services. "It might be quite difficult to staff the southern branch with a staff equal to that of the university itself.

"Calgary's reputation in the past would lead one to believe that it would never be reconciled to having only a branch of the university located there but that it would ultimately seek a university complete in every detail which the ratepayers of the province would have to finance.

"Since it mattered little to Coleman students seeking a university education, as they would have to leave Coleman in any case and it would simply mean an additional train ride from Calgary to Edmonton, the university could well enough be left in the northern city where the university facilities were already located.

"The 'conflict' gives food for thought as Calgary no doubt puts up a strong argument in its own behalf. One thing would be assured—Calgarians would have better representation in the university as city students would not be confronted with housing accommodation and high board bills as they would be able to reside at home,

Playgoers' Club

(Continued from Page 1)

lot who loses out to a "Mysterious Voice," Karl Johnson. The play kept up a fine pace all through and was a credit to its directors Mary and Frank Duncanson.

The third play was a farce "The Pot Boiler" by Alice Gerstenberg. A great playwright-director, Pinikles Sud, Sid, Short, shows a young friend, Ken, Short, how a great man produces his masterpieces. Mr. Ivory, Horace Allen, his daughter Miss Ivory, Elenor Wilson, Mr. Ruler, the hero, Fred Guerard, Mr. Inkwell, the villain, Harry Holmes, and Mrs. Pencil the sultry foreign vamp, Hazel Cox, are the stock characters around which is built a hilarious satire on modern plays. The climax was a maze of revolvers, confusion and laughter. Arthur Graham was director.

Karl Johnson and his crew were in charge of stage arrangements, while Mrs. H. Buckna and George Roper played delightful numbers during the intermissions.

The interesting point of the evening was the equal balance of young talented players with the old experienced artists who have so long delighted Coleman audiences to make an evening of grand entertainment which was enjoyed by all.

TOO CLOSE FOR COMFORT

A week ago Saturday afternoon Mrs. John Bayon and young daughter left their Third Street home to go down town shopping. Before leaving Mrs. Bayon put a small fire on the furnace.

During the afternoon Mrs. Bayon's sister, Mrs. O. Smith, called at the home to find smoke escaping from the basement. She called the boy Leithwaite to help her and they opened the cellar door to be met with a heavy volume of smoke. Pails of water were thrown on the fire that was eating at the basement and it was finally put out. Smoke caused damage to the newly decorated walls in the home, as the Bayons only recently moved into their new home which they purchased late this summer from Mr. and Mrs. J. A. Park. Christmas decorations and other miscellaneous items were destroyed in the basement.

BRASS BAND TO ORGANIZE

On Sunday afternoon a number of interested citizens met in the council chambers to discuss the formation of a Coleman brass band. Informal discussion took place and it was agreed to seek a number of bandmen residing locally and to seek an executive, who, while they may not be bandmen, would have sufficient interest in a Coleman band to work in its interests.

A second meeting is scheduled for the near future.

Advertising acts as a tonic to any head of business enterprise—

THEATRE NOTES

Fun and Romance Blend Keenly in "Along Came Jones" (Cole's on Saturday)
Adventure, romance and laugh-

ter are blended in "Along Came Jones," International's new starring vehicle for Gary Cooper and Loretta Young.

Most of the thrill and the sparkling comedy of the plot revolve about Cooper's adroit characterization of Melody Jones, a rangy frontiersman who cherishes a burning desire to be accepted as important. He'd rather like to be a sheriff, but the fact that he's the poorest shot west of the Mississippi is something of a drawback.

To his astonishment, his ambition seems to be realized when he rides into a Texas border town and find the entire populace seemingly terrified of him. It appears, however, that they've mistaken him for a notorious desperado, which deflates Melody considerably. However, when a very pretty girl comes on the scene and wants him to aid her in a mysterious scheme to help get the real desperado out of the country, he leaps at the opportunity.

Handcapped by his horrible clumsiness with a gun, Melody gets himself into one jam after another with the outlaw's pals, an express agent, the sheriff's posse, and finally with the bandit himself.

"Crack-Up" at Palace Saturday
International thieves, committing murder to obtain Old Masters, are on a rampage in RKO Radio's suspenseful drama, "Crack-Up," starring Pat O'Brien, Claire Trevor and Herbert Marshall. The startling mystery drama is thrill-packed with hard-boiled realism.

O'Brien as an art expert at a New York museum incurs the wrath of the crooks when he plans to X-ray some priceless paintings, a sure method of detecting forgeries. As some of the pictures are

copies, the thieves must put a stop to O'Brien's activities. They hesitate killing him, but take him for a ride — on a train — and he is picked up suffering from insane delusions, his career at the museum terminated. O'Brien determines to get to the bottom of things, but

has to work from undercover when he is sought for the murder of the museum curator.

Helping to clear up the tangled webs of mystery are Miss Trevor, as O'Brien's fiancée, and Marshall as a Scotland Yard investigator posing as an art expert.

"I thought I was WELL-INSULATED

till polythene came along!"

Well may the thick-skinned rhinoceros grieve, for chemistry has produced an insulating material that puts even his tough

hide to shame . . . It is called polythene—a new plastic

that stands up to heat and cold and is unaffected by any

known chemicals at ordinary temperature. Its unusual

insulating qualities make it an indispensable factor in the vast, new

field of radar and television while it gets back to earth

again in the form of simple, resilient, waterproof refrigerator

bowl covers that seem to last forever . . . polythene, in its scope

of application, is another outstanding example of what

Chemistry is contributing to our daily comfort and welfare.

SERVING CANADIANS

THROUGH CHEMISTRY

Looking Ahead

with tougher tires...
stitchless watch straps...and
anti-freeze tractor tires

Carbon Black (a nuisance when it collects on the lamp chimney) makes today's tires much tougher and abrasion resistant. 25 years ago tires ran 5,000 miles, with luck. Today's tires, thanks largely to the addition of carbon black, run at least 5 times farther. A versatile material, carbon black finds its way into such diverse products as ink and buttons, fountain pens and, yes, carbon paper.

A strap without stitches will grace the wrist watch of the future. It is molded from the versatile plastic, nylon, which makes it unaffected by weather, perspiration or continuous wear. Tested by servicemen under all climatic conditions, it is now about ready for peacetime use.

Practical farmers weight their tractors by simply adding water to the tires. In summer this procedure is fine, but in cold weather the addition of some antifreeze to the water load is necessary. Here chemistry steps in. Calcium Magnesium Chloride obtained from C-I-L salt at Neepawa, Manitoba, is the low cost chemical ideal for this purpose. It has no detrimental effect on the tires.

Further information on any of these products is obtainable by writing "Looking Ahead", I-L, P.O. Box 10, Montreal.

Let The Journal Handle Your Job Printing

THREE ROAD BRIDGES WILL COST \$400,000

Plans for the construction of three major highway bridges involving a cost of about \$400,000

have been outlined by the public works department, according to officials of the Alberta Motor Association.

For some years the AMA has been stressing the need of adequate

bridge construction in the province with proper approaches.

The province is to make an immediate start on building a five-span steel highway bridge over the Old Man river between Lethbridge and Madsen. This is expected to cost \$200,000 and is regarded as a vital need for highway traffic taking that route.

Construction of piers already has commenced on the \$150,000 highway bridge on the Calgary highway over the Red Deer river at Red Deer. It has been found impossible to complete the piers in time to permit stringing of steel this winter so this means that steel work will not be possible until low water conditions prevail next August. It is unlikely that the bridge can be opened to traffic before next fall.

Another project is the construction of a 100-foot steel bridge over the Blindman river on the Calgary highway between Red Deer and Ponoka. The road is being straightened in this sector.

...V...

To All Residents Of Coleman

The Coleman Housewives' Association are calling upon all residents of Coleman to call in at the Community Hall on Monday and Tuesday, Dec. 16 and 17, between the hours of 9 to 12 noon and 1 to 6 p.m. for a 1 hour each evening from 7 to 8 o'clock to sign a Petition to the Federal Government on two important questions facing the people of Canada as a whole.

These questions are:

1st, The Lifting of all Ceiling Prices.

2nd, The proposed increase in Freight Rates.

We are proposing that our Federal Govt. replace the price ceiling already lifted and that no further lifting of Ceiling Prices takes place on any commodities.

That the Govt. does not allow any increase in Freight Rates as this means that the storekeepers are going to have to pay higher freight rates and in turn charge the consumer higher prices for their commodities. At the present time our dollar earns at today at a value of only 62½ cents which, in turn means that the people of Canada are taking a reduction in their take home pay.

We are making this appeal to every citizen of Coleman—Housewives, Miners, Clerical Workers, School Teachers, Business Men and all others. Your duty to the future generations of Canada rests in your hands. Be certain to call at the Community Hall, Coleman, on the above mentioned dates and sign the Petition.

We wish to remind all women of Coleman that the next meeting of

the Coleman Housewives' Assoc. will be held Monday, January 13, 1947, in the Community Hall at 7 p.m.

Coleman Housewives' Association, Mrs. E. McCartney (Pres.), Mrs. J. Bosak (Secy.) ...V...

While you dear sister, rest and sleep,
Your loving memory we'll always keep.
Ever remembered by Mr. and Mrs. Dave Sudworth, Annie, Fred and Joan

PHILLIPS—In Loving Memory of our dear husband and father, Alfred Phillips sr., who passed away on December 12, 1943.

Remembrance keeps him near.
Ever remembered by the Family.

PENNEY—In Loving Memory of James Penney who passed away December 9, 1944.

His memory is as dear today
As in the hour he passed away.
Ever remembered by Amy, Steve and family.

Mr. and Mrs. Robert Pattinson and Georgeann visited Mrs. Pattinson's parents, Mr. and Mrs. H. T. Halliwell, at Madsen on Sunday.

The Churches

ST. PAUL'S UNITED CHURCH
Rev. R. Magowan, BA, Pastor
Sunday, Dec. 15:
Services 11 a.m. and 7.30 p.m.
Sunday school 12:15 noon.

The sacraments of Baptism and the Lord's Supper will be observed at the morning service. New members will be received.

The Canadian Girls in Training and their leaders will conduct a Vesper and Candle Lighting service in the evening.

The Sunday school Christmas entertainment, to which the congregation is invited, will be held on the evening of Wednesday, December 18.

The Auxiliary of the Women's Missionary Society will hold their Christmas meeting on Thursday, Dec. 19, at 8 p.m.

ST. ALBAN'S CHURCH
(Anglican)

Rector: Rev. Wm. Grazier
Dec. 15, Third Sunday in Advent:
2 p.m., Sunday school in the Parish Hall.

St. Alban's Sunday school teachers enjoyed a pot-luck supper in the parish hall Monday evening. Final arrangements were made for the Sunday school Christmas Tree and entertainment to be held in the parish hall Dec. 23.

T. B. Questions and Answers

Q. If an arrested case of tuberculosis was greatly underweight, would there be any danger in his working?

A. This would depend upon the cause of his underweight and whether he was under his usual weight or under the computed weight for his age, sex and height. If he is much under his usual weight, he should not work until the weight has been regained.

Q. When a patient is discharged from a sanatorium as an arrested case, is he usually able to work at bookkeeping eight hours a day?

A. As a rule yes, if the term "arrested" is that of the national tuberculosis association classification.

LABOR-MANAGEMENT COMMITTEES IN POST-WAR CANADA

The number of labor-management production committees now functioning in industry across Canada has passed the 450 mark, according to the industrial production co-operation board in the Dominion department of labor. This is an increase of 70 committees in the past 12 months. These committees cover management and workers in an area of employment in which over 2,000,000 workers are engaged.

Initiated during war years to increase wartime production through a closer partnership of management and workers, the committees operated so successfully that it was decided they could also fill a very useful place during the period of reconversion and afterwards by bringing management and labor closer together.

When it came to getting work done during the war, cost of production was not the important item; rather it was the speed and volume of production that mattered. With industry returned to a basis of competition from other countries and other industries, the volume of production in relation to cost became important once more. Experience has shown that the committees are an assistance to the various industries in facing peacetime competition through an improvement of employer-employee relations.

The labor-management production committees are independent of collective bargaining, and do not overlap the field of union-management negotiation, but fill an important role in day to day labor-management relations. The committees, according to labor department officials, have met with success sufficient to justify their development in the future as a feature of industry.

A labor-management committee

is composed of representatives of management and labor, and is designed as an aid to increase production, improve efficiency and generally to promote mutual confidence and trust between the partners in industry. The committees may be described as a joint enterprise in which there is a two-way channel of communication for the exchange of ideas and information on production problems. They are an agency which makes possible effective plant action on production, conservation, recreation, welfare, safety, absenteeism and many other important problems, according to officials of the board.

Auction Sale Of Timber

Crownst-Bow River Forest Reserve
Timber Sale No. 428

The right to cut certain timber on the following lands will be offered at public auction at the office of the Forest Superintendent, 125 - 7th Avenue West, Calgary, Alberta, at 2:00 o'clock P.M. on Tuesday, the seventh day of January, 1947:

All those portions which are and which would be if the said Township were subdivided under the Alberta System of Land Surveys the North half and Legal Subdivisions 5 and 6 of Section 7; the South half and those portions of Legal Subdivisions, 9, 10, 11 and 12 which lie to the South of a straight line drawn from the North East corner of the said Legal Subdivision 9 to the South West corner of the said Legal Subdivision 12 of Section 15 in Township 7, Range 4, West of the 5th Meridian; containing 1,251 square miles, more or less.

On these lands there is estimated to be approximately 12,000,000 feet board measure of green spruce and pine lumber. No green timber of a diameter of less than ten inches measured eighteen inches from the ground shall be cut.

The sale will be offered at the upset price of dues as prescribed by the Forest Reserves Regulations for seven lumber of a species other than poplar. If the rate bid is in excess of the regulation rate, dues payable on railway ties shall be commensurate with the price bid.

Otherwise, all other products at the rates prescribed by the Forest Reserves Regulations.

Bids will be accepted only from an individual, body corporate, or registered partnership, partners to submit proof of registration at time of bidding, and that the purchaser will be allowed until May 1st, 1951, to cut and remove all timber covered by the conditions of sale.

Each bidder will be required to deposit with the officer conducting the sale the sum of \$3,600.00 in cash, bank draft or accepted cheque on any chartered bank in Canada or by certified non-negotiable Transfer Voucher payable to the Provincial Treasurer, before being allowed to bid.

Agents will be required to file letters of authorization from their principals before bidding.

The deposits of unsuccessful bidders will be returned to them at the conclusion of the sale and that of the purchaser held as a deposit to guarantee compliance with the terms and conditions of sale.

Full particulars may be obtained from the Forest Superintendent, 125 - 7th Avenue West, Calgary, Alberta, or the Director of Forestry, Edmonton, Alberta.

T. F. BLEFGEN,
Director of Forestry,
Department of Lands and Mines,
Edmonton, Alberta,
December 4th, 1946.

World Food Supplies

A YEAR AGO THE WORLD FOOD SITUATION was very grave and authorities were apprehensive as to what might happen in parts of Europe and Asia before another crop was harvested. Disaster and famine, such as was expected by many people was averted but the distribution of food was a gigantic problem and much hope was centred on this year's harvest. In the main grain producing countries there was a bountiful crop this year, the volume of wheat production being greater this season than in any year since 1940. In spite of this, however, it appears that there is still anxiety over the world food supply and that the situation this year may be as critical as it was in 1945-46.

Reserves Have Been Used Up

The reason for this continued shortage of grain is attributed to the fact that all reserve supplies of wheat and other grains have been utilized to meet the desperate need of the people in the famine-stricken countries. As a result we are now living in a situation which one writer describes as "from field to mouth" in respect to grain supplies. Had there been poor crops this year, the world food situation would have undoubtedly been desperate. As it is, it is hoped that we may weather the coming year successfully. Those in close touch with this matter are of the opinion that if disaster can be averted during the next year, and if the next harvest is a good one, the situation will, for a time at least, have been successfully met.

Problem Is Of Wide Interest

As a major food-producing country and one of the largest contributors to the work of the United Nations Relief and Rehabilitation Administration, Canada has a great interest in all problems connected with present and future developments in respect to food production and marketing. At this time, the whole question is under discussion in the councils of the United Nations, and these discussions should be followed closely by the people of this country. There are many world problems to take up the attention of the public today, but it should not be forgotten that the question of world food supply is a very vital one, and one which, in the opinion of many people, is closely connected with the preservation of world peace.

SPENDING ORGY PETERING OUT

Shops Report Falling Demand For Goods Other Than Essentials

SYDNEY, Australia.—A spending orgy that came in Australia with the end of the war is petering out and people have become sparing both in their pleasures and domestic purchases.

Returned service personnel have spent their deferred pay received on discharge either on their rehabilitation or on a holiday before resuming civilian work. Civilians are thought to have spent their war savings.

Sydney night clubs report a big drop in attendance. Except for Friday and Saturday nights when they are still crowded, attendances are said to be only about half of what they have been, though food and service have improved.

Shops also report falling demand for goods other than essentials. Hotel-keepers, whose bars do big business, say that their sales are steady but there is no wild spending.

Bookmakers in Sydney and Melbourne report that people are betting on the horses to meet sums instead of big wagers that used to go around the ring. Melbourne bookmakers estimate their takings at a recent important race meeting were down 50 per cent, though attendance at the track was larger than a year ago. Totalizator figures are also down.

There has been a decline in savings deposits with banks. Deposits with trading banks dropped by about \$10,000,000 in June. Deposits with the government-controlled Commonwealth Bank after reaching record figures in July have fallen from a monthly average of \$20,000,000 to about \$700,000.

BOY USES ODD METHOD TO OBTAIN MONEY

CHICAGO.—Sixteen-year-old David Ruge, who said his ugly face caused him so much grief that he tried to extort funds to have it corrected, received a \$1,000 cheque from an Ohio industrialist and will soon have his plastic surgery operation.

The youth recently won probation on a charge of attempted extortion after he had admitted he sent a letter to a former employer threatening to kill his two children unless the father paid \$5,000. Ruge said his friends called him "monkey face."

Miss Jessie Blinford, head of the Juvenile Protective Association, who has charge of a fund for the surgery, said the Ohio donor asked that his identity be kept secret. She declined to say how much money the fund received from sympathizers, but added the boy will soon have his operation.

SILK FOR BRITAIN

YOKOHAMA.—A shipment of 1,212 boxes of raw silk, the first to be exported to Britain since the end of the war, will be loaded aboard the transport Empire Frazer.

How to Combat RHEUMATIC PAIN

Rheumatic pains may often be caused by excess uric acid, a blood impurity that should be extracted by the kidneys. If kidneys fail, and excess uric acid remains, it may cause severe discomfort and pain. Treat rheumatic pains by keeping your kidneys in good condition. Get and use Dodd's Kidney Pills. Dodd's help your kidneys get rid of trouble-making poisons and excess acids—help you feel better. See what Dodd's can do for you. 137

Real Silk From China

Australia Is Buying All That Can Be Shipped

SYDNEY, Australia.—Chinese silk now being sold here is being flown from Hongkong to Sydney in 42 hours. Manufactured in Chinese factories by Chinese labor, the silk is being snapped up from samples even before it passes the customs.

The factories are only now getting into full production, as many looms were destroyed by the Japanese. Prices, now prohibitive, should start to fall as production rises.

Nylons stacked 10 feet high at a Sydney store will be sold shortly—but they are parachutes, not stockings. Designers consider them suitable for modern swim-suits and evening dresses. About 250 nylon 'chutes will be sold and as many fine woven silk ones.

MANY NEW GADGETS FOR HOUSEHOLD USE

An Efficient Filter For Keeping Refrigerator Fresh And Sweet

The number of household gadgets, large and small slated to appear on the market is sure proof that we're back in the piping days of peace again. Many of the new items are made of metal, aluminium, or stainless steel.

In this group is an efficient filter for keeping the interior of your refrigerator fresh and sweet by absorbing food odors. It's a long narrow, perforated aluminium container filled with pellets of "activated carbon". It looks almost like a flat sheet of the metal and is suspended under any shelf in the refrigerator by means of little hooks.

The carbon grains or pellets with which it is filled are made from husks of coconuts which have been burned to a charred state. These take up many times their own volume of odorous gases and will not wear out for at least five years. You remove the gadget when defrosting the refrigerator, and once in a while you slip it in the oven and bake it a short while to restore its dryness. Otherwise you leave it alone.

Its makers claim it will protect butter, milk, and ice cubes from having an "off taste", and that it prevents mingling of flavors and transfer of taste from one food to another.

From time to time there have been a number of little gadgets intended to help the constant reader keep his place in his book. Along comes a new one made of metal and designed to clamp to the back cover. An extension arm which slides back and forth and from which a small metal tab depends fits down over the page you want to turn to next time. It's easy to adjust it to fit the next chapter.

MIMICKED HIMSELF INTO LOVE

SOUTHAMPTON, Eng.—Eighteen years ago an English boy named Leonard William Naylor mimicked the American accent of a 15-year-old girl he heard talking in the yard next to his home.

The liff they had over that was patched up and they became friends. When Lucille Greenham of Detroit went home after visiting relatives here, she began writing to Naylor. "Three years later she visited here for a short time, and saw him again. After a courtship of 15 years conducted by mail, Naylor and Miss Greenham were married.

Give Coleman "Light Makers"

This Christmas—Coleman Lamps and Lanterns are gifts that keep on giving better light for years.

COLEMAN LAMPS give clear, room-filling, eye-saving light for all the family. COLEMAN LANTHERNS give powerful floodlight brilliance that makes all outdoor night jobs easier, faster, safer. You can't give a finer gift to friends or your own family than these famous Coleman "Light Makers". Hardware and general stores all over Canada sell them. See your local dealer.

Figure It Out

News Items Such As This Are A Bit Confusing

The Charlottetown Patriot says: "We read in an exchange, 'James Brown is much better after being kicked by a horse.' Of course what is meant, Mr. Brown is recovering, and feeling better after a horse kicked him. No, that does not make it read right yet, because this would sound that it did Brown good by the horse kicking him, and if the horse hadn't kicked him, he would not be feeling better, and again, if he wasn't kicked, he would be the same as before and not feeling better. Well, what the Dickens are we trying to say? Moral—Keep away from that horse's head."

KEEP COLD OUT

SLOAN'S LINIMENT
GOOD FOR STRAINS
JUST PAT IT ON!

LITTLE DRAMAS OF HOME LIFE

Pop was writing the household cheques ... and suddenly blew his top!

IT was as quick as that! All was serene in the household, with the Male Parent working in his den, the rest of the family scattered around. Then, all of a sudden, Pop exploded like a landmine.

What had happened to Pop? — Was it the bills? — no, they came every month. Was it the kids? — no, Pop usually took them in his stride. Was it — yes, this sounds like it — a caffeine hangover? For Pop had been going it rather strong for tea and coffee recently.

Watch your nerves! Drink Postum—for its grand, rewarding flavor—and because it's the ideal way to stop drinking tea and coffee. Contains no caffeine to over-stimulate and upset you. Convenient—made right in the cup—economical—costs less than a cent a serving.

A Product of General Foods

AGRICULTURE MEN BECOMING CONCERNED OVER CANADA'S DECLINING HOG PRODUCTION

OTTAWA.—The little pig that trotted merrily off to market in the peak year of 1944 is fast becoming just a shadow of his former self, much to the concern of the Canadian farmer.

This became apparent this week when the top men of Canadian agriculture held a three-day get-together here and let it be known they were worried about the welfare of the Canadian hog and they aim to put him back on his feet.

They are worried about his welfare, that is, right up to the point where the hog goes into the slaughter house and then the concern becomes a dollar-and-cents matter of whether or not Canada can continue to hold her place in the foreign bacon market.

Put down in statistics, the worry over the hog situation arises from the fact that the estimated hog production in Canada this year will be 26 per cent, lower than it was last year—from 5,861,545 hogs down to 4,350,000. These figures compare with the 1943-45 average which showed hog production then at 7,291,264 a year.

To the average Canadian, this means less bacon on the breakfast table, and though it doesn't affect his pocket book directly, a chance that Canada will lose the British bacon market.

That is also proved by the record. In 1943-45, for example, Canadians consumed 322,392,000 pounds of bacon and pork yearly. In 1945 alone they ate only 272,068,000 and by the end of this year the total will have dropped to 243,978,000 pounds.

Again, in 1943-45 Canada shipped an average of 616,742,000 pounds of bacon and pork overseas each year while in 1945 they shipped 457,244,000 pounds and this year the amount will be 295,500,000.

To remedy the situation, the agriculture men, attending the Dominion-provincial agricultural conference recommended that Canadian hog production be boosted in 1947 to 5,175,000 head, which should provide 288,204,000 pounds for domestic consumption and 365,000,000 pounds for export.

The reason for the decline in hog production goes back to the decrease in the output of feed grains, with which the hogs are fed. The lower feed supplies, incidentally are the cause of the shortages in supplies of dairy products such as butter and cheese.

To increase the production of feed grain, the conference decided to ask the government to make a payment of \$5 to western Canadian farmers for every acre they sow to barley, whether or not the land produces a crop. If this is done, many prairie farmers are expected to turn from the growing of wheat to barley, with a resultant increase in feed supplies.

AGRICULTURAL CONFERENCE HAS RECOMMENDED CUT IN CANADIAN WHEAT ACREAGE

OTTAWA.—The Dominion-provincial agricultural conference recommended that Canadian farmers seed only 24,000,000 acres to wheat in 1947 for a 1,900,000-acre reduction from the 25,900,000 acres seeded this year.

Announcing 1947 farm production targets at the end of a three-day meeting, the conference also recommended that oats acreage be boosted to 14,310,200 acres from the 13,192,700 seeded this year and that barley acreage be increased almost 20 per cent, to 8,000,000 from this year's total of 6,730,500 acres.

The conference agreed that the barley acreage should be increased through some "incentive" yet to be determined. There had been suggestions during the conference discussions that a bonus be paid to farmers for every acre seeded to barley.

The decision to increase the output of feed grains—oats and barley—reflected the emphasis placed during the conference discussions on the need of providing more feed for farmers were to maintain output of meat and dairy products.

The recommended rye acreage for 1947 was 487,100, six per cent, below the 518,000 acres seeded in 1946. The conference recommended that the prairie provinces put 18,811,100 acres in summerfallow—land left idle for a year as a conservation measure—compared with the 18,906,000 acres summerfallow this year.

The target for mixed grains, grown principally in Quebec and Ontario, was placed at 1,453,400, a four-per cent, gain over this year's total of 1,399,900 acres.

LEAD SHIPS LEAVE

U.S. Navy's Expedition Is On Its Way To South Pole

ABOARD THE U.S.S. MT. OLYMPUS.—The lead ships of the United States navy's expedition to Antarctica steamed through Hampton Roads Dec. 2 and headed for the South Pole. A cold wave which hit Norfolk chilled some of the sailors' enthusiasm for the four-months trip of exploration and scientific-military testing, but generally the departure moved smoothly.

The flagship Mt. Olympus, the ice-breaker Northwind, the seaplane tender Pine Island and the destroyer Brownson left the Virginia port with supplies sufficient to last eight months if necessary.

Four thousand men, under the command of Rear Admiral Richard E. Byrd of previous polar expedition fame, make up the amphibious expedition.

STRIKE IN FIRE

Means No Sugar If Factory Employees Will Not Resume Work

DUBLIN.—Harassed housewives will go without sugar for Christmas and confectionery, jam-making and allied industries will be at a standstill soon unless employees of Eire's four sugar-beet factories return to work.

In defiance of their unions, employees have been on strike several weeks seeking improved pay and working conditions. Provisional agreement was reached with the Irish Sugar company but workers repudiated it.

Deadline now prevails. The company, backed by the government, will negotiate only with the unions. The workers, despite union orders to return, say they won't go back until they get what they regard as a satisfactory offer.

GOING TO OXFORD

Young Alberta Veteran Named Saskatchewan's Rhodes Scholar For 1946

SASKATOON.—Saskatchewan's 1946 Rhodes scholar is James Albert McDonald of St. Albert, Alta. Announcement of the award was made by the selection committee in Saskatoon.

Mr. McDonald, a 27-year-old veteran of the Second Great War, is the son of a farmer and Mrs. J. D. McDonald. He served six years in the navy and graduated this spring with great distinction in arts and sciences.

At present he is taking honors in economics at Oxford where he will study advanced economics.

COMING HOME SOON

Balance Of Canada's Overseas Troops Will Be Back Shortly

OTTAWA.—All but a handful of Canada's overseas troops will be back home by mid-January, army authorities said.

There are now 1,800 troops overseas, it was estimated, and the bulk of this number—1,020—sail for Canada Dec. 10 on the liner Samaria. Another 600 will leave Jan. 8 on the Aquilana.

About 150 servicemen have indicated their intention of taking their discharges in England and staying there. The others will remain in the United Kingdom on duty in Canadian army liaison offices.

THIEVES NABBED

Police Have Arrested Fifteen Members Of Robber Gang In Russian Zone

BERLIN.—The German State Railways announced that "flying columns" of railway police, together with Russian military police, have arrested 15 members of robber gangs which have been hiding up trains in the Russian occupation zone.

There have been more than 800 attacks on German trains in the Russian zone, but the attacks have been declining, railway officials said. They reported 27 gang robberies and 22 single bandits during October.

PRODUCTION BOOSTED

LONDON.—Britain's "export-orientation" campaign resulted in increased production of steel, motor vehicles and merchant ships in October, the official monthly digest of statistics disclosed. Employment in September totalled 6,845,000, or 30,000 more than in June, 1945, while registered unemployed were 359,000 against 1,270,000 for the same pre-war month.

FOUR LIVES LOST IN TRAIN WRECK—Wrecking crane lifts locomotive truck which lay across the body of Engineer J. O. Logan after the Saskatchewan train collision which took the lives of four men.

ALBERTA LIVESTOCK HITS NEW RECORD

Valued In Excess Of \$3,500,000 Was Handled

CALGARY.—Livestock valued in excess of \$3,500,000 was handled through the Alberta stockyards during November to set an all-time record for livestock handling for any month, officials of the Alberta Stockyards company said.

The exact value of the stock handled amounted to \$3,351,437. Not included in this total were the hundreds of thousands of dollars worth of livestock handled directly by the local packing plants.

ISTANBUL REPORT

Prime Minister Stalin Seriously Ill According To Newspapers

ISTANBUL, Turkey.—Two Istanbul newspapers published assertions that Prime Minister Stalin of Russia is seriously ill.

The political correspondent of Tass, crediting his information to "authoritative reports", said Premier Stalin's illness is so serious that "all high ranking officials and his closest friends now are near him." The account said Premier Stalin did not recover from an illness last spring and that his condition is "getting more and more serious."

SHOWING DECREASE

Board Of Grain Commissioners Reports Drop In Wheat Stocks

WINNIPEG.—Visible stocks of wheat in store in Canada the week ending Nov. 29 were 158,000,000 bushels, a report of grain commissioners indicated. This was a decrease of 1,000,000 bushels from the last week and compared with 204,800,000 at the same time last year. Pacific coast wheat stocks totalled 8,500,000 bushels and 2,700,000 bushels were at the Atlantic seaboard position.

NUDGES MEN ASIDE—Mrs. Florence Patton, Labor member for Ruschlife (Nottingham), is one of 12 chairmen nominated by the Speaker of the House for the current British parliamentary session. Former school teacher, she is the first woman to get such an assignment.

NO INFORMATION

Ottawa Not Making Announcement On Wheat Pool Taxation

OTTAWA.—A finance department official said he did not believe there would be any announcement from here on the settlement of the long-standing question of the taxation of wheat pools.

Wheat pool officials in western Canada announced recently that the settlement had been reached but said the terms would have to be released by the finance department.

The department official said he understood the government's attitude on the matter was that it had reached an agreement with a group of taxpayers. If those taxpayers wanted to make their affairs public it was up to them.

NEW FOOD SETUP AS A SUCCESSOR TO UNRRA IS OF INTEREST TO CANADA

LAKE SUCCESS.—Creation of an international organization to carry on in 1947 part of the work of the United Nations Relief and Rehabilitation Administration rests almost solely with the United States, ex-mayor Florence H. LaGuardia, now director of UNRRA, told a press conference here. He submitted a compromise proposal for the creation of a successor to UNRRA which he stressed, was based upon principles already accepted by the United States and other contributing countries.

Mr. LaGuardia's proposal will form one of the items to be debated in the economic committee of the United Nations general assembly. The committee has met previously and has heard a proposal from the United States that UNRRA be allowed to lapse when the period for which it was created is up. The United States government recognizes that some countries will continue to need relief after UNRRA ends. It proposes to meet these needs through the action of individual states in seeking and supplying the necessary help. Britain has generally adopted the same line in committee meetings here.

Canada will be greatly concerned in the outcome of the debate on international relief. If there is to be relief for hungry peoples, Canada must provide a considerable amount of the food required. It can mean much to the Dominion whether the relief is supplied through an international agency, which will assume responsibility for the cost, or whether the burden falls individually upon the countries with food to spare. The Canadian delegation has been working hard on this problem behind the scenes.

The minimum requirements of an international relief organization, Mr. LaGuardia said, were that an impartial international body should determine the needs of every country, and the amount of supplies available and that these should be allocated accordingly.

ST. THOMAS, Ont.—Thieves who entered the city laundry here didn't want money or valuables, all they wanted was shirts. They opened three parcels of laundry and removed five shirts, ignoring the remainder of the parcel's contents.

AMERICAN-BRITISH PLAN WOULD MAKE SINGLE AREA OF TWO GERMAN ZONES

MEMBERS NAMED

Committee To Represent Manitoba In Opposing Proposed Freight Rate Increase

WINNIPEG.—Appointment of an economic and technical committee to represent Manitoba in opposing the proposed 30 per cent. increase in freight rates was announced by Premier Stuart Garton.

Members named were: John Allen, counsel for Manitoba, Robert Moffat, economist, and Walter Macdonald, who will represent both Manitoba and Saskatchewan.

NEW TRADE COMMISSIONER

VANCOUVER.—Paul Sykes, newly-appointed Canadian trade commissioner to Singapore, said here that Canada is making a strong bid to restore her rich pre-war trade with the Orient.

ingly. In the plan he proposed, there would be created the United Nations emergency food board to carry out these two tasks.

Having assessed the need and estimated available supplies, the board would then determine what ought to be the contribution of each country—recipient and donor alike—to assume its share of the relief load, Mr. LaGuardia said. The board, in the compromise proposal now put forward, would not be given the power to make an assessment on nations for these amounts. It could only advise governments and "seek to persuade" them to take up their quotas of the cost. His earlier proposal called for prior commitments by participating countries that they would contribute on an agreed basis.

RUMOR INCORRECT

Canadian Price Controls Not To Be Lifted Says Donald Gordon

OTTAWA.—Donald Gordon, price board chairman, said it was an "incorrect conjecture" that decontrol of wages and salaries would be followed by quick removal of price ceilings. Mr. Gordon said he was astonished at published rumors to this effect in the face of Prime Minister King's definite undertaking that price controls would be maintained.

"Mr. King could not have been more definite," the price board head said. He read to a reporter the prime minister's statement in his wage control announcement, declaring it involved "no change in the government's policy respecting price control and the control of rentals."

MOST VALUABLE THING

ST. THOMAS, Ont.—Thieves who entered the city laundry here didn't want money or valuables, all they wanted was shirts. They opened three parcels of laundry and removed five shirts, ignoring the remainder of the parcel's contents.

ROMANIAN ELECTION "NOT SATISFACTORY" TO U.S. AND BRITAIN—Jubilant after voters had cast a majority of ballots in their favor are Petru Gроза, left, Romanian premier, and Gheorghe-Del, secretary of the Romanian Communist party. U.K. and U.S. observers are reported dissatisfied with the elections.

NEW YORK.—Secretary of State James F. Byrnes predicted that preliminary discussions of Germany would probably be little more than agreement on future procedure.

Byrnes made his statement at a press conference called to announce the details of the American-British plan for economic fusion of their occupation zones of Germany. The plan makes the United States and Britain "equal partners" in treating the two zones as a single area.

Byrnes and British Foreign Secretary Ernest Bevin in a joint statement said.

The agreement contemplates an economic program designed to make the area self-sustaining in three years. By this program it is expected not only to decrease the cost of occupation of the area but also to make possible the gradual restoration of a healthy non-aggressive German economy which will contribute materially to the economic stability of Europe.

The agreement includes a promise by the two governments to increase the present ration standard for Germany from 1,550 calories to 1,800 calories as soon as the world food supply permits.

Byrnes admitted that the immediate cost to the American taxpayer under the plan to fuse the two zones will be greater—approximately \$100,000,000 more in 1947 than it would have been if the two zones remain separate. But he explained that at the end of three years under the unified plan it is expected that the two zones, by operating together, would attain economic self-sufficiency. He said that would be impossible if the two zones remained separate.

Byrnes admitted also that he had not consulted members of congress who will be responsible for approving higher appropriations in the next year or so. He appeared confident, however, that congress could be persuaded that in the long run economic fusion will cost the American taxpayer less.

HONOR VISCOUNT ALEXANDER LONDON.—The king has appointed Field Marshal Viscount Alexander of Tunis, one of Britain's wartime leaders, now governor-general of Canada, and six other leading war figures to be Knights of the Order, Britain's highest order of knighthood, the government disclosed.

NEW CITIZENS

OTTAWA.—A total of 2,902 former Polish soldiers arrived in Canada during November, Harold R. Hare, head of the group of Canadian experts who selected the Poles in Italy, said.

Mr. Hamilton of Lacombe left Wednesday for Calgary after visiting his daughter, Mrs. Mary Fraser, for several days.

Mr. and Mrs. Foss Boulton and baby of Waterton National Park were the week-end visitors of the former's parents, Mr. and Mrs. H. Boulton.

Mr. and Mrs. John Sudworth and family have arrived in town from New Westminster and are guests of the former's parents, Mr. and Mrs. Dave Sudworth.

The CGIT are holding their annual Xmas candle light service in St. Paul's United church on Sunday, Dec. 15, at 7:30 p.m. Friends and adherents are cordially invited to attend the service.

People shop where they are invited—that's why it pays to advertise.

WEDDINGS

POZZI-HOYLE

The marriage took place on Saturday afternoon, Dec. 7, at Bellevue, of Eileen Marion, youngest daughter of Mr. and Mrs. David Hoyle, of Coleman, to Mr. Veno Pozzi, son of Mr. and Mrs. Pozzi, of Hillcrest. The ceremony was performed by Father Anderson.

The bride's gown was of white triple sheer, over heavy satin, and had a maltese lace yoke. Her veil of embroidered net was held in place by a coronet of lace and orange blossoms. She carried a bouquet of red and white roses. Her pearl necklace was the gift of the groom. After the ceremony she was presented with a floral horseshoe.

Miss Eride Pozzi, sister of the groom, was bridesmaid. She wore a peach colored gown with full net skirt and satin bodice, and carried a bouquet of pink and white flowers.

Mr. Danny Squarek, of Hillcrest, attended the groom.

A reception was held afterwards at the home of the bride's parents, when the guests were received by Mrs. D. Hoyle assisted by the

groom's mother. About one hundred guests attended.

A three tiered wedding cake centred the table, which was decorated with holly and assorted flowers.

Assisting with the serving were Mrs. Gilbert Hoyle of Coleman, Mrs. Kenneth Rhodes of Bellevue, Mrs. Len Hoyle of Calgary and Mrs. Claude Parsons of Lethbridge.

For travelling the bride wore a lime green dressmaker suit with black accessories and black top coat.

They left later for Lethbridge, taking the plane to Great Falls and points south. On their return they will reside at Hillcrest.
